Summary

BI Data Analyst with 6 years of experience, Microsoft PL-300 certified. I gather business requirements, define and secure KPIs, and deliver dashboards that drive decisions. Advanced Power BI (DAX, data modeling), daily SQL and Python, Microsoft stack (SQL Server, SSIS, SSAS, Azure Data Factory) and GCP / BigQuery.

Experience

Freelance Data Analyst Consultant (industrial client, robotics) — Île-de-France
Independent contract (10 months) — Jan 2026 – Present

- Advised on BI data modeling and reporting design, from requirements gathering to deliverable sign-off
- Prepared data in SQL on BigQuery and contributed to dbt models (staging, facts, dimensions)
- Built Power BI dashboards connected to BigQuery: semantic model, DAX measures

Tech stack: Power BI, DAX, BigQuery, dbt, SQL, Microsoft Fabric

BI Data Analyst — Paris
Xelians Archivage (3 years) — Jan 2023 – Dec 2025

- Migrated 150+ SSRS reports to Power BI on a central SQL Server data warehouse: −40% reporting production time
- Aligned KPIs across departments (accounting, marketing, customer service, logistics) and built a KPI catalog
- Developed ETL pipelines (SSIS, Azure Data Factory), SSAS and Power BI models with RLS, Databricks processing
- Administered Power BI Service (1,500+ users) and maintained Tableau dashboards

Tech stack: Power BI, DAX, SQL Server, SSIS, SSAS, Azure Data Factory, Databricks, Tableau, Git

Business Intelligence Consultant — Paris
CIAMT – Occupational Health (1 year) — Dec 2021 – Dec 2022

- Built Power BI reporting tracking 3,000+ employees, as the organization's sole data profile
- Automated report data loading in SQL: delivery time cut from 3 days to a few hours
- Modeled medical visit scheduling in Python and R (regression, K-means)

Tech stack: Power BI, SQL, Python (Pandas, Scikit-learn), R

Data Analyst — Algiers, Algeria
Icosium Technologies (1 year) — Sep 2019 – Aug 2020

- Built Power BI and Excel KPI dashboards for the finance team from cleansed multi-source data

Skills

Visualization & BI
Power BI (DAX, Power Query M, RLS, calculation groups), Tableau, Excel (Power Pivot, VBA), Microsoft Fabric.

Data & Cloud
SQL / T-SQL, SQL Server, SSIS, SSAS, Azure Data Factory, Databricks, GCP / BigQuery, dbt, Python, Git.

Methods
Requirements gathering, KPI definition, dimensional modeling, data quality control, UAT, Agile.

Languages
French and Arabic (native), English (professional, TOEIC 895), Spanish (intermediate).

Education

Master's Degree – Data Analysis and Probability — 2020 – 2021
Université de Lorraine – CentraleSupélec, Metz, France

Master's Degree – Applied Mathematics for Data Analysis — 2017 – 2019
University of Biskra, Algeria

Certifications

Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Sep 2026
Microsoft
